**Professional Technical Programs**

In general, Grays Harbor College’s Associate in Applied Science (AAS) and Associate in Technology (AT) degrees are not designed for transfer to other colleges or universities. AAS and AT degrees will not be accepted as appropriate preparation for most BA or BS degrees. The Association in Applied Science, Associate in Technology, Certificate of Completion (CC), and Certificate of Achievement (CA) are designed for students whose primary goal is to enter the job market after completion. Students completing the requirements for the degrees or certificates will receive either the Associate in Applied Science degree, the Associate in Technology degree, a Certificate of Completion, or a Certificate of Achievement. The professional technical program choices are listed below with a page number reference:
