CSI 096 Photography Workshop Series \$22.10
 Students will meet weekly. Each week they will be given examples of a different photography topic. A discussion about the best approach, equipment and techniques for this topic will be given. Then during the week, students will shoot the pictures with the topic in mind. They will bring examples to the next class to be discussed during the first hour. The second hour of the class will be devoted to a new topic for the upcoming week.

CSI 115 Photoshop Elements 6 Series \$14.37

Weekly sessions will include different examples of Elements methods. Topics will include advanced dodging and burning, retouching portraits, curves, layers and other Elements methods aimed at helping photographers work and create more comfortably using the electronic darkroom. The class will be taught using Photoshop Elements 6. Users of earlier versions of Elements will find the class very helpful and informative in understanding and using their program. Students are required to bring laptop computers to class and follow along using the same pictures as the instructor. Each student will be provided a CD of the pictures.
